Pioneer

A-series speakers engineered to get loud, while maintaining smooth, low distortion sound
 - Powerful and Loud sound
 - Smooth frequency response and sound dispersion for superior off-axis listening
 - Clear mids and highs with low distortions

Haut-parleurs de la série A conçus pour être puissants, tout en conservant un son doux et une distorsion basse
 - Son fort et puissant
 - Réponse en fréquence fluide avec grande dispersion pour une meilleure écoute hors axe
 - Des médiums et des aigus clairs et de faibles distorsions

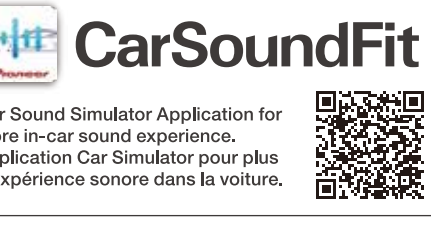

- FEATURES
- 1. OPEN & SMOOTH sound concept delivers smooth frequency response and wide dispersion for superior off-axis listening
- 2. Carbon and Mica reinforced IMPP cone provides fast response and precise bass
- 3. Optimized symmetrical motor design with a large magnet reproduces powerful and loud sound
- 4. Polyetherimide (PEI) cone diaphragm provides clear mids and highs with low distortions
- 5. Multi-Fit adapters expand installation flexibility and improve acoustic performances

- FEATURES
- 1. Concept sonore OPEN & SMOOTH offre une réponse en fréquence fluide et une grande dispersion pour une meilleure écoute hors axe
- 2. Cône IMPP renforcé de carbone et de mica offre une réponse rapide et des basses précises
- 3. Conception optimisée du moteur symétrique avec grand aimant reproduit un son fort et puissant
- 4. Cône en polyéthérimide (PEI) fournit des médiums et des aigus clairs et de faibles distorsions
- 5. Adaptateurs Multi-Fit augmentent la flexibilité d'installation tout en améliorant les performances acoustiques

 4-WAY SPEAKER / HP 4 VOIES

WARNING
 Over time, your hearing "comfort level" adapts to higher volumes of sound, so that what sounds "normal" can actually be doing harm. To protect against hearing loss, set your equipment's volume at a low setting, and don't listen for long periods of time. If you are not hearing clearly, stop listening immediately. Do not turn up the volume so high that you can't hear what's around you.

AVERTISSEMENT
 Avec le temps, votre système auditif peut s'adapter à des volumes supérieurs, et ce qui vous semble un niveau de confort normal, pourrait en fait nuire à votre audition. Pour protéger votre audition, réglez le volume de votre équipement à un niveau inférieur, puis manœuvrez progressivement jusqu'à un niveau d'écoute confortable et clair. Ne touchez ensuite plus au bouton de volume, et arrêtez-vous toujours de pouvoir entendre ce qui se passe autour de vous.
