Installation Manual Double DIN Kit

Carefully remove the air vents and then the original cover mask.

Take the left and right brackets and mount them on the two sides of the double din unit with supplied screws . Connect all cables, verify the proper functioning of the system.

Disconnect all cables and remove the original head unit. Remove and save the four lights control panel.

Insert the unit into the housing. Fix it with screws. Place the four lights control panel on the new facia plate and remount all on the dashboard. Replace the air vents.
