

CAUTION
 1. Do not use the cord on the product or cords associated with accessories.
 2. Do not use the product or cords associated with accessories in areas where they could cause a fire hazard.
 3. Do not use the product or cords associated with accessories in areas where they could cause a short circuit.
 4. Do not use the product or cords associated with accessories in areas where they could cause a mechanical failure.
 5. Do not use the product or cords associated with accessories in areas where they could cause a chemical hazard.
 6. Do not use the product or cords associated with accessories in areas where they could cause a biological hazard.
 7. Do not use the product or cords associated with accessories in areas where they could cause a radiation hazard.
 8. Do not use the product or cords associated with accessories in areas where they could cause a nuclear hazard.
 9. Do not use the product or cords associated with accessories in areas where they could cause a radioactive hazard.
 10. Do not use the product or cords associated with accessories in areas where they could cause a toxic hazard.
 11. Do not use the product or cords associated with accessories in areas where they could cause a flammable hazard.
 12. Do not use the product or cords associated with accessories in areas where they could cause an explosive hazard.
 13. Do not use the product or cords associated with accessories in areas where they could cause a corrosive hazard.
 14. Do not use the product or cords associated with accessories in areas where they could cause a harmful or irritating hazard.
 15. Do not use the product or cords associated with accessories in areas where they could cause a health hazard.
 16. Do not use the product or cords associated with accessories in areas where they could cause an environmental hazard.
 17. Do not use the product or cords associated with accessories in areas where they could cause a safety hazard.
 18. Do not use the product or cords associated with accessories in areas where they could cause a liability hazard.
 19. Do not use the product or cords associated with accessories in areas where they could cause a warranty hazard.
 20. Do not use the product or cords associated with accessories in areas where they could cause a legal hazard.

ATTENTION
 1. Ne jamais utiliser le cordon du produit ou les câbles associés aux accessoires.
 2. Ne jamais utiliser le produit ou les câbles associés aux accessoires dans des zones où ils pourraient provoquer un incendie.
 3. Ne jamais utiliser le produit ou les câbles associés aux accessoires dans des zones où ils pourraient provoquer un court-circuit.
 4. Ne jamais utiliser le produit ou les câbles associés aux accessoires dans des zones où ils pourraient provoquer une défaillance mécanique.
 5. Ne jamais utiliser le produit ou les câbles associés aux accessoires dans des zones où ils pourraient provoquer un danger chimique.
 6. Ne jamais utiliser le produit ou les câbles associés aux accessoires dans des zones où ils pourraient provoquer un danger biologique.
 7. Ne jamais utiliser le produit ou les câbles associés aux accessoires dans des zones où ils pourraient provoquer un danger radiologique.
 8. Ne jamais utiliser le produit ou les câbles associés aux accessoires dans des zones où ils pourraient provoquer un danger nucléaire.
 9. Ne jamais utiliser le produit ou les câbles associés aux accessoires dans des zones où ils pourraient provoquer un danger radioactif.
 10. Ne jamais utiliser le produit ou les câbles associés aux accessoires dans des zones où ils pourraient provoquer un danger toxique.
 11. Ne jamais utiliser le produit ou les câbles associés aux accessoires dans des zones où ils pourraient provoquer un danger inflammable.
 12. Ne jamais utiliser le produit ou les câbles associés aux accessoires dans des zones où ils pourraient provoquer un danger explosif.
 13. Ne jamais utiliser le produit ou les câbles associés aux accessoires dans des zones où ils pourraient provoquer un danger corrosif.
 14. Ne jamais utiliser le produit ou les câbles associés aux accessoires dans des zones où ils pourraient provoquer un danger nocif ou irritant.
 15. Ne jamais utiliser le produit ou les câbles associés aux accessoires dans des zones où ils pourraient provoquer un danger pour la santé.
 16. Ne jamais utiliser le produit ou les câbles associés aux accessoires dans des zones où ils pourraient provoquer un danger pour l'environnement.
 17. Ne jamais utiliser le produit ou les câbles associés aux accessoires dans des zones où ils pourraient provoquer un danger de sécurité.
 18. Ne jamais utiliser le produit ou les câbles associés aux accessoires dans des zones où ils pourraient provoquer un danger de responsabilité.
 19. Ne jamais utiliser le produit ou les câbles associés aux accessoires dans des zones où ils pourraient provoquer un danger de garantie.
 20. Ne jamais utiliser le produit ou les câbles associés aux accessoires dans des zones où ils pourraient provoquer un danger juridique.

PRECAUTION
 1. Do not use the cord on the product or cords associated with accessories.
 2. Do not use the product or cords associated with accessories in areas where they could cause a fire hazard.
 3. Do not use the product or cords associated with accessories in areas where they could cause a short circuit.
 4. Do not use the product or cords associated with accessories in areas where they could cause a mechanical failure.
 5. Do not use the product or cords associated with accessories in areas where they could cause a chemical hazard.
 6. Do not use the product or cords associated with accessories in areas where they could cause a biological hazard.
 7. Do not use the product or cords associated with accessories in areas where they could cause a radiation hazard.
 8. Do not use the product or cords associated with accessories in areas where they could cause a nuclear hazard.
 9. Do not use the product or cords associated with accessories in areas where they could cause a radioactive hazard.
 10. Do not use the product or cords associated with accessories in areas where they could cause a toxic hazard.
 11. Do not use the product or cords associated with accessories in areas where they could cause a flammable hazard.
 12. Do not use the product or cords associated with accessories in areas where they could cause an explosive hazard.
 13. Do not use the product or cords associated with accessories in areas where they could cause a corrosive hazard.
 14. Do not use the product or cords associated with accessories in areas where they could cause a harmful or irritating hazard.
 15. Do not use the product or cords associated with accessories in areas where they could cause a health hazard.
 16. Do not use the product or cords associated with accessories in areas where they could cause an environmental hazard.
 17. Do not use the product or cords associated with accessories in areas where they could cause a safety hazard.
 18. Do not use the product or cords associated with accessories in areas where they could cause a liability hazard.
