

## System Firmware Update Instructions for AVH-X8600BT

### REMARKS:

- ✓ If you have any difficulty carrying out these instructions, please contact Pioneer Customer Support. Once upgraded to this version, it is not possible to downgrade to a lower version.
- ✓ Please download and print these instructions before downloading and installing the firmware update. It is important that you complete all steps correctly and in the order described below.
- ✓ The only USB port that supports the firmware update is USB port 1, but you may also use the SD card slot.
- ✓ Never turn your unit off, eject the SD memory card or disconnect the USB storage device while the firmware is being updated.
- ✓ You can only update the firmware when the vehicle is stopped and the parking brake is engaged.
- ✓ **In case you have US model, please visit '[pioneerelectronics.com/firmware](http://pioneerelectronics.com/firmware)' to download the correct firmware file for your US model.**

### Displaying the firmware version

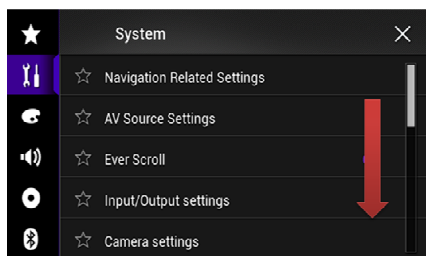

Check whether the firmware of your unit needs to be updated by checking the version number.

1. Press the HOME button to display the Top menu screen.
2. Touch the following keys in the following order.

The "System" screen appears

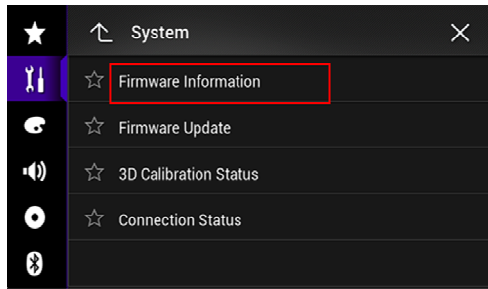

3. Scroll down the list.

4. Touch [System Information].

5. Touch [Firmware Information].

6. After the "Firmware Information" screen appears, check the firmware version number. If the Application Version number is lower than **1.20**, it is necessary to update.

## A. Downloading the Firmware Update Files

1. Download the correct firmware file to a folder on your computer.  
→ **AVH-X8600BT\_FW\_Ver\_120.zip**
2. Double click the ZIP file to open it.
3. Extract and save the folder "AVIC5000NEX" to a folder on your computer.

## B. Updating the firmware on your Unit

### IMPORTANT

- ✓ Please DO NOT perform this firmware update if the model number of your Pioneer Navigation unit is anything other than the above listed models. (The model number of your unit can be found in the lower or upper right corner of the front panel.)
- ✓ Ensure that the update folder ("AVIC5000NEX") is located within the root (top) folder of your SD memory card or USB storage device. There should be no other files within the SD memory card or USB storage device.
- ✓ While your unit is being updated, DO NOT turn off the system's power and DO NOT touch the unit's touch panel as this may result in severe damage to your unit.
- ✓ DO NOT remove the SD memory card or USB storage device during the firmware update.
- ✓ Performing the firmware update will restore all settings to their default values.
- ✓ Before you start the update procedure, make sure to disconnect any mobile devices that are currently connected to your unit.

### PROCEDURE:

1. Connect a blank (**FAT32 formatted and minimum capacity of 2GB**) SD memory card or USB storage device to your computer, and then locate the correct update folder ("AVIC5000NEX") and copy it onto the Root (top) folder of the SD memory card or USB storage device.
2. Insert the SD memory card into the SD card slot or connect the USB storage device to USB port 1.
3. On your unit; turn the AV Source off
4. Press the HOME button to display the Top menu screen.

5. Touch the following keys in the following order.

The "System" screen appears.

6. Scroll down the list.

7. Touch [System Information].

8. Touch [Firmware Update]. The "Firmware Update" screen appears.

9. Touch [Continue] to display the data transfer mode.

Wait for the file check to finish. Depending on the USB speed this can take a few minutes.

10. Touch [Start]. The progress status is shown. (Please note: Approximately one minute after the update has started, the receiver will restart itself and return to the below update screen)

11. Wait until the update process is complete. Once the firmware update process is complete, the unit will display following screen:

12. Press the HOME button.

13. Remove the SD memory card or USB storage device.

14. The firmware update is complete. Check the firmware version as described in "Displaying the firmware version" to confirm that the update was successful.

## Firmware Update FAQ

**Q:** What if my set does not switch on automatically after updating the software or starts up more than once?

**A:** Turn off the ignition key and turn on again – the set should start up now.

**Q:** What if I cannot upgrade my set / the set does not show the start up screen after more than 1 attempt?

**A:** Please contact your local Pioneer service organisation for a product check-up.
