

Pioneer is an international company in which more than 8000 employees worldwide develop and produce innovative, high-tech car entertainment products. Our goal? Making your mobility experiences safer, smarter and more comfortable.

Would you like to help carry this vision forward? You can!

Pioneer Electronics is planning to set up a new development center in Germany (Wetzlar) to support our car entertainment business.

To strengthen this engineering team, we are looking for a **Technical Program manager**.

Your responsibilities:

- Responsible for the in-time and in-quality delivery of customer projects
- Represent the customer inside Pioneer and follow-up on the interface to the OEM customer
- Interfacing to Software development, Hardware development, Mechanical development, Program planning (JP) and Production (TH)
- Coordinate inter-disciplinary cooperation between department and international sites
- Setup and track overall project plan, escalate to management if required to reach milestones
- Track conformance to Pioneer development process
- Review and supervise documentation
- Create risk mitigation plans and set milestones
- Create cost and effort estimations for programs and larger change requests, work on RFQs

Required skills?

- At least 15 years of experience in development and delivery of in-car electronics at a tier 1 supplier
- Min. 5 years of experience in the sound / audio / infotainment business
- Excellent knowledge of in-car electronics architectures and processes
- Good English and overall communication skills
- Hands-on mentality
- Leader that can motivate and inspire the development team
- Stress-resistant
- Able to work with Confluence, Jira, MS Project and Office tools

Interested?

Send your application & CV to Wetzlar@pioneer.eu and we will contact you!
