Pioneer is an international company in which more than 8000 employees worldwide develop and produce innovative, high-tech car entertainment products. Our goal? Making your mobility experiences safer, smarter and more comfortable.

Would you like to help carry this vision forward? You can!

Pioneer is setting up a new development center in Germany (Wetzlar) to support our car entertainment business.

To strengthen this engineering team, we are looking for a **Test Lead**

Your responsibilities:

- Define and implement test strategies aligned with ASPICE standards.
- Develop Requirement strategy, analyze system and software requirements to derive test cases and validation plans.
- Develop and maintain automated test solutions to enhance efficiency and reliability.
- Lead testing efforts, including HIL and SIL validation, ensuring coverage.
- Work closely with cross-functional teams to integrate testing into the development lifecycle.
- Manage and mentor a test team, ensuring task allocation and fostering a collaborative work environment.
- Act as the primary contact for customers, ensuring effective communication and seamless integration of feedback.

Required skills?

- ISTQB Certification and strong knowledge of software testing methodologies.
- Extensive experience with ASPICE and its application in automotive projects.
- Strong background in requirements analysis and test case development.
- Hands-on experience with HIL and SIL testing, as well as automated testing frameworks.
- In-depth experience with CANoe and vTESTstudio for test script development and automation of HIL and SIL in close cooperation with SW department.
- Experience with diagnostic tools, vehicle networks, and communication protocols (e.g., CAN, Ethernet).
- Experience with Vector tools for vehicle network analysis and simulation.
- Familiarity with AutoSAR and Linux-based systems
- Leadership experience, including team management and task coordination.
- Excellent communication skills in both English and German are a must.

Bonus points:

- Experience working with Polarian and Jira.
- Experience with automotive audio systems or multimedia applications.

Interested?

Send your application & CV to Wetzlar@pioneer.eu and we will contact you!
