

## CHANGE HISTORY FOR DMH-ZF9350BT

### Ver 3.00 (June, 2022 Update)

- ✓ Amazon Alexa new function<sup>(\*)</sup>; added new music service (Spotify)
- ✓ Other improvements

*(\*) Availability of non-Pioneer content and services, including apps and connectivity, may change without notice due to changes in operating system, firmware or app versions, changes to, restrictions on or discontinuation of the service or service plans; non-Pioneer hardware changes; or other events.*

### Ver 2.01 (January, 2022 Update)

- ✓ Usability enhancements and Hands-Free Audio quality improvements

### Ver 2.00 (December, 2021 Update)

- ✓ Support for Carplay Split screen.

You can now display Apple CarPlay and some of the Stereo Receiver's menu on one screen if the Dynamic Screen Resize function is available on your iPhone.

- ✓ Receiver internet access.

By using the CarAVAssist app and the wireless data from your mobile device, you can automatically connect to functions (Sports, Browser, etc.) that require an internet connection.

### Ver 1.31 (Februari, 2021 Update)

- ✓ Android Auto Wireless connectivity improvements
- ✓ USB storage device connectivity improvements
- ✓ Minor bug fixes
